

Notice to the Trade.

1st. Please observe that this is a new Catalogue, and that mostly all the designs represented therein are new articles, and therefore should be carefully scrutinized.

2d. That all the articles have been renumbered, and therefore do not correspond with the numbers in the old Catalogue.

3d. That in order to avoid delay and unnecessary correspondence, all articles should be ordered by their new numbers.

4th. That a considerable reduction has been made in my prices, so much so in fact that the same quality of work cannot be purchased elsewhere at the same price.

5th. That I will give you ~~15~~ per cent. straight discount from the face of the enclosed list, and 5 per cent. extra discount for cash upon delivery, or when the money accompanies the order—matted, f. o. b. boat or cars in New York.

6th. That in all cases where the party is unknown the order must be either accompanied by the cash or by good references, easily reached, which must be equal to a guarantee, or goods will not be forwarded.

Very respectfully,

PETER KEHR.

OF

PETER KEHR

123 to 135 MANGIN STREET, NEW YORK.

Near the Houston St. Ferry, East River.

THE present Catalogue is intended to be the standard of my work, and the articles mentioned herein are to be designated by their numbers as Desks, Bookcases, or Secretaries. The notice mentioned below this preface will be for the guidance of my customers, and all orders and sales of goods are to be subject to the conditions implied therein.

The accompanying Price-List has on a number of articles again been revised for the benefit of the trade, and I trust I shall continue to enjoy their confidence hereafter, to as full an extent as I have experienced that pleasure in the past; for which I render them my hearty thanks.

It is not my intention to say in this preface any words of commendation or praise in behalf of my work, or of myself, as by this time I am too favorably known by the entire trade throughout the United States and foreign countries, and enjoy the confidence and trust reposed in me by almost every principal business house.

This Catalogue is intended for the accommodation of the trade, and is furnished to them free of charge.

A number of new styles have been added, some of which are very rich and elaborate, and will supply a want long felt in the market.

The demand for my goods has been so extensive from all parts of the country that I was unable to supply them with that promptness with which I have always endeavored to serve my customers; but I take the greatest pleasure in announcing, that with my enlarged facilities and room, together with my personal supervision of an increased force of the best mechanics, I will be able in the future to execute their orders with greater care and dispatch. The fitting up of offices with glass partitions, etc., is made a specialty in my line.

Calling your attention to the Notice and Conditions of Sales on the opposite side of this page,

I remain,

Yours respectfully,

PETER KEHR.

NOTICE.

To the Trade and Public in general it must be strictly understood that all goods are made and all orders accepted subject to the following Rules and Conditions :

1. That in the construction of my work the materials will be selected according to the quality and price of the article (as customary among all manufacturers), partly of solid and partly of soft wood veneered; this is done in order to secure a better standing of the work, and for the purpose of furnishing a particular class of work at lower rates.

2. That a number of articles have been much improved and are far superior to what the cut shows, and that wherever the article deviates from the cut, such deviation is in favor of the article in accordance with the changes of the times in regard to character and style.

3. That my Price-List only applies to the regular work as shown in my illustrated catalogue. When orders are given which in any way vary from the regular styles, the Price-List rates are not to be applied.

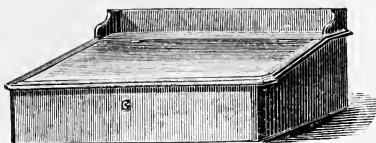

4. I also wish to impress upon the minds of my customers that when orders are given which deviate from my regular styles and measurements, that they will have to be made to order in regular rotation, as noted in my order-book. In consequence, I cannot allow myself to be limited to a specified time in their construction, but will endeavor to furnish the same with the least possible delay.

5. I would also call their attention to the fact that in the selection of the materials as well as in the construction of my work my personal attention will be constantly given, in order that the same may prove satisfactory to my customers; but I cannot allow them to hold me responsible for anything that may happen to the work after shipment, as I shall use my best exertions to make shipment in good order, after which the purchasers must assume all the responsibility.

6. Please take notice, that, for the purpose of liberating myself from constant annoyance caused by many in the trade, and by such as pretending to be agents in sending or directing private men to purchase of my goods, and afterwards claiming a percentage or the difference of the amount and the wholesale Price-List.

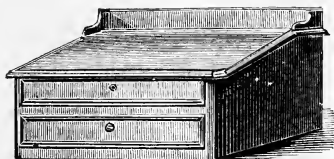

7. Under such circumstances, I feel compelled to bring to the knowledge of the trade and others, that it has never been my desire to have private men sent or directed to me, and that from this date I will not consider or know any one in the transaction of a sale to private parties.

If anything longer is needed, it can be made to order. Has solid top. Any fractional part of a foot ordered will be charged at the next higher full-foot price.

No. 264

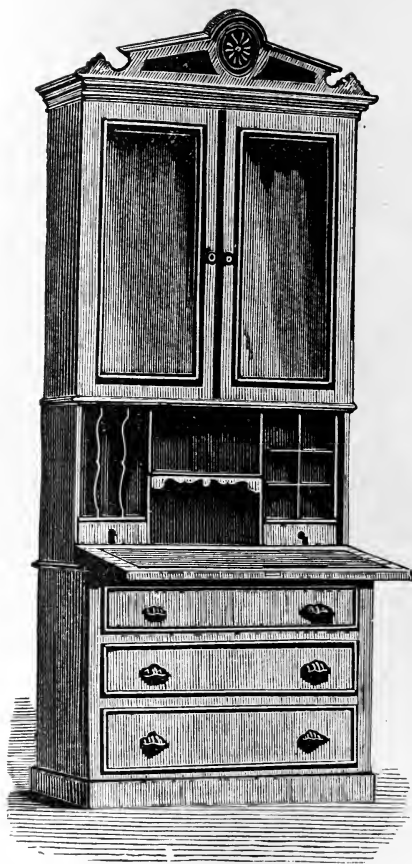

Is intended for cashier's or bookkeeper's use, and has a full finished back to set out in the center of an office. Has full base and moldings in all the panels, and can be had in different sizes, from 3 feet up to 6 feet, as stated in price list; anything longer can be made to order in size to suit. Has solid top and transparent glass in the top frame. Any fractional part of a foot ordered will be charged at the next higher full-foot price.

No. 265

Is of regular standing height, and is intended for bookkeepers' or cashiers' use. Has a full-finished back, and can be made of all lengths. The 5-feet, 6-feet and 7-feet sizes are generally kept in stock; if anything longer is desired it can be made to order to suit. Has full base, heavy moldings in all the panels, and transparent glass in the top frame. Any fractional part of a foot ordered will be charged at the next higher full-foot price.

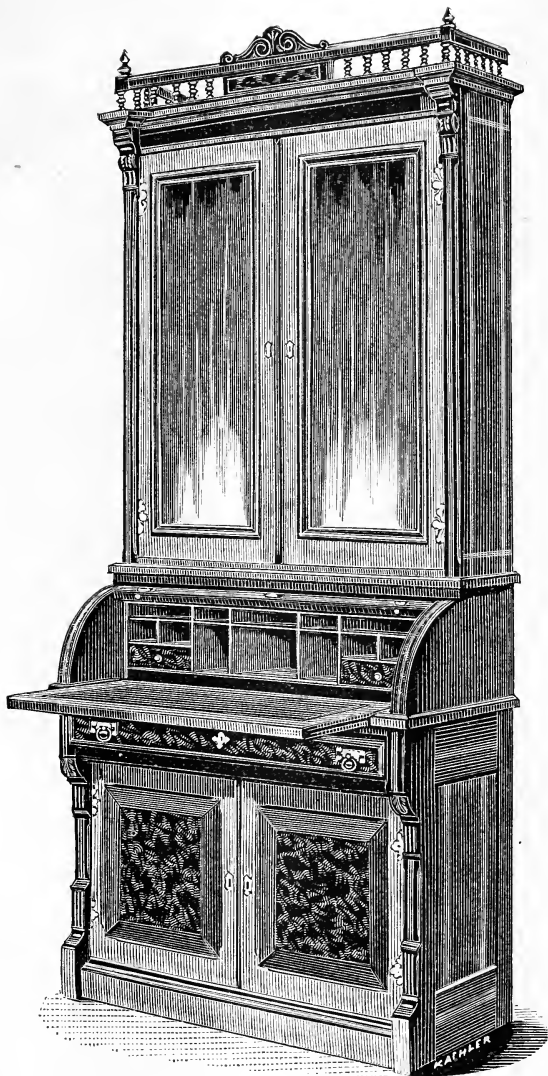

Please read Preface of this Catalogue.

No. 271

Is a plain, substantial and commodious secretary bookcase. Has shifting shelves and enameled cloth cover. Size, 8 feet 2 inches high over all; 3 feet 6 inches wide in the extreme.

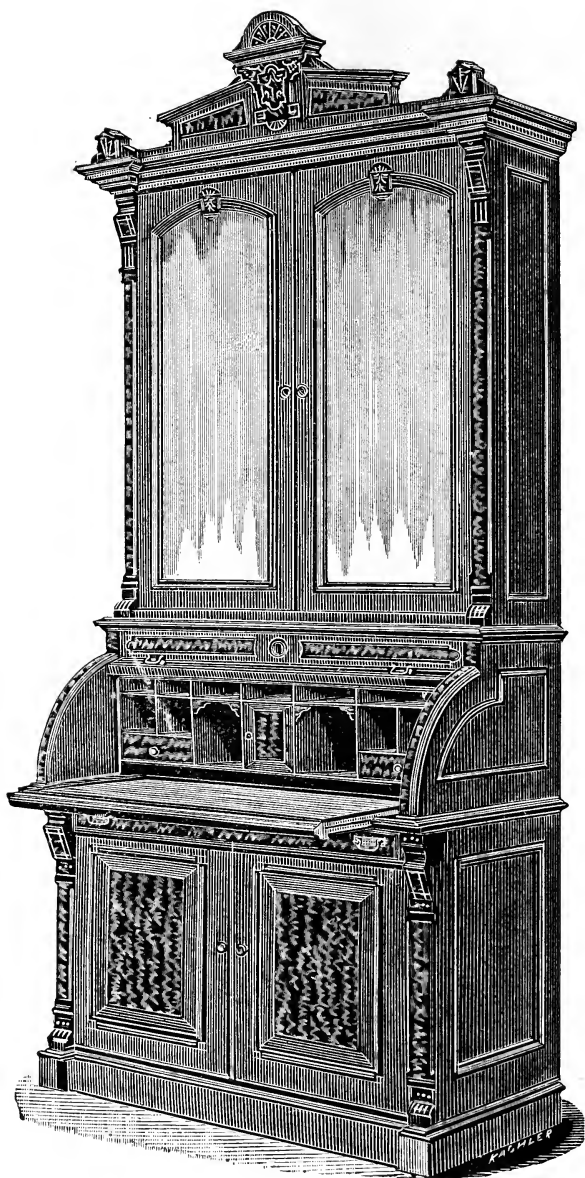

Please read Preface of this Catalogue.

No. 272

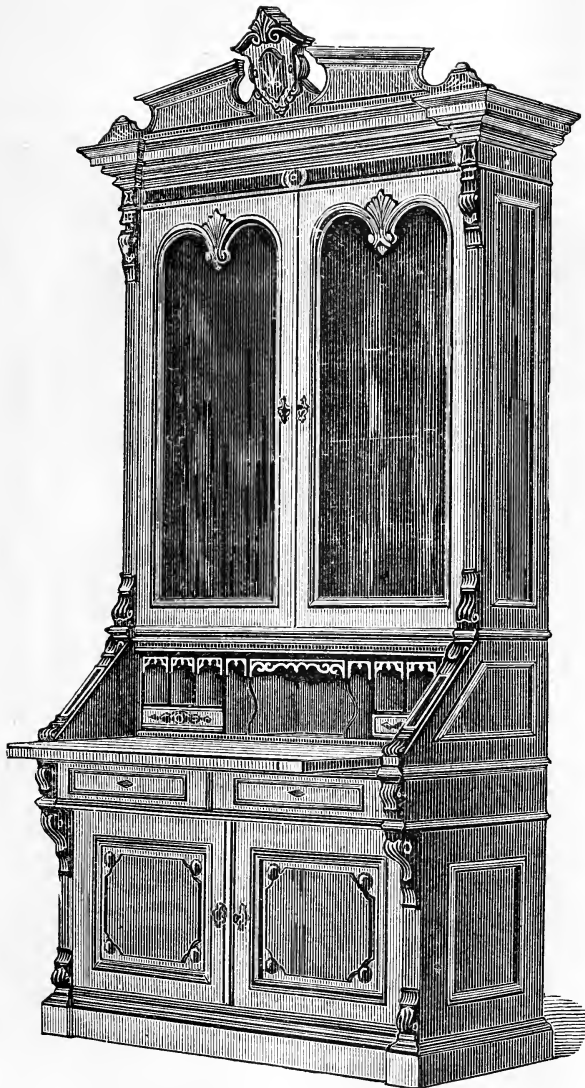

Represents a new style of Cylinder secretary bookcase, ornamented with neat carvings, gilt trimmings and French walnut polished panels. Has transparent glass in the doors, shifting shelves in the bookcase part, and one large shelf in the closet below. The writing lid is covered with billiard cloth, with a gilt leather border. Is made in two sizes, designated as A and B. A is 4 feet wide (extreme), and 8 feet 6 inches high over all. B is 3 feet 6 inches wide (extreme), and 7 feet 10 inches high over all. B is also made with drawers below instead of cupboard.

Please read Preface of this Catalogue,

No. 273

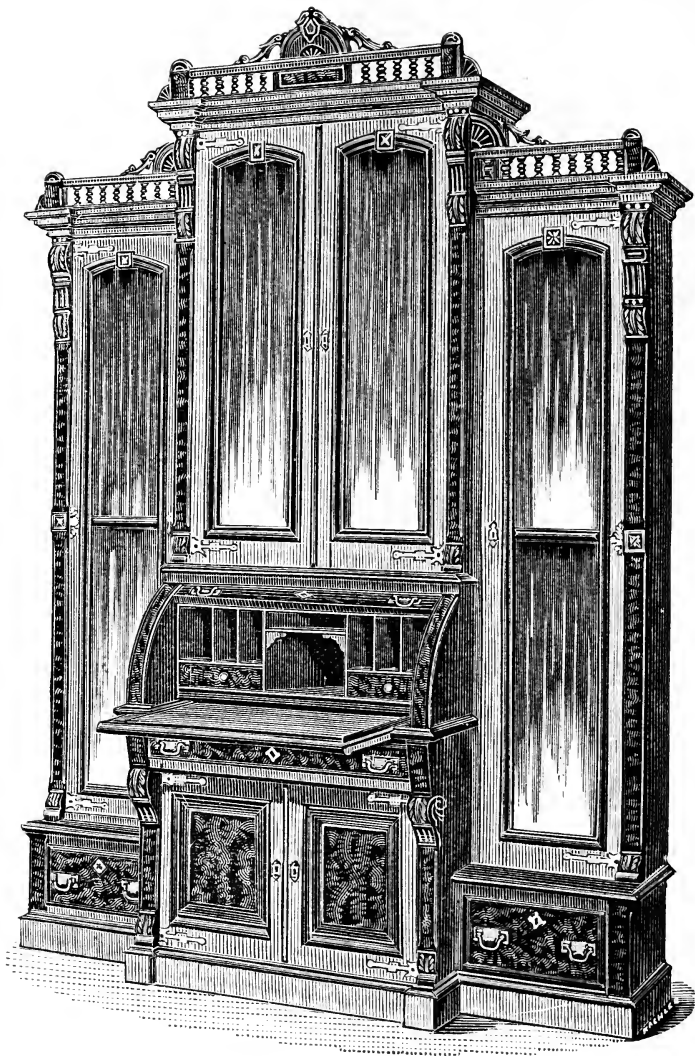

Represents an elegant and valuable cylinder secretary bookcase, made wholly by hand. The interior of the bookcase part is finished with birdseye maple, and the same is ornamented throughout with neat carvings. All the panels and ornamental panels on the front are of French walnut, highly polished. This is a much more desirable and beautiful secretary bookcase than the design shows, with many late improvements, and has only to be seen to be appreciated. Is made in three sizes designated by the letters A, B and C. The closet below contains a horizontal shelf. Has transparent glass in the doors. A is 9 feet 9 inches high over all; is 5 feet wide in the extreme. B is 9 feet high over all; is 4 feet 6 inches wide in the extreme. C is 8 feet 3 inches high over all; is 4 feet wide in the extreme.

No. 274

The above design represents one of the most elegant and durable secretory bookcases in the market. Has rich carvings and French walnut raised panels (nicely varnished and polished). The panels in the door, lids, etc., are also of polished French walnut, and it is otherwise tastefully trimmed throughout. It is a beautiful, elaborate and useful article, worthy of a choice place in the parlor. It is entirely hand-made, and the lid is covered with billiard cloth with a gilt border. Has a shelf in the closet below and clear glass in the doors. Size, 9 feet high over all ; 4 feet 7 inches wide in the extreme.

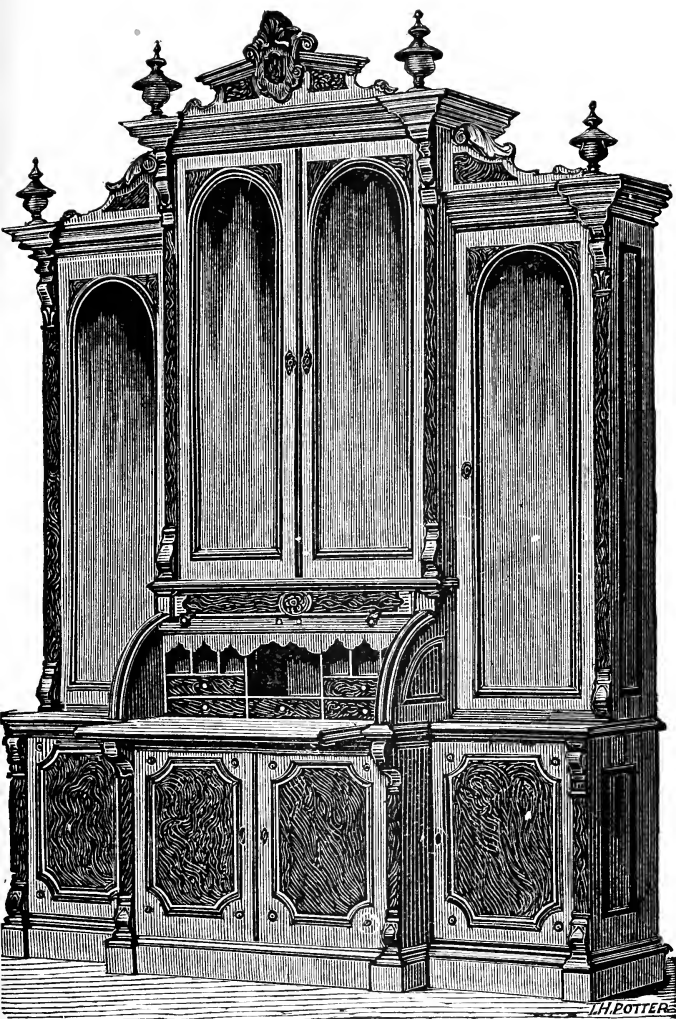

Please read Preface of this Catalogue.

No. 275

This is entirely a new design of a cylinder secretary bookcase, and is introduced to meet the wants of the trade for a cheaper article than the No. 276 pattern. It is constructed in a very handsome and substantial manner, and is tastefully ornamented by the addition of neat carvings, gilt trimmings and French walnut polished panels on the drawers, etc., etc., which make it a very attractive article of household furniture. Is built in sections to aid in handling, and has shifting shelves in the bookcase parts. Has transparent glass in the doors and billiard cloth with gilt border on the writing slide. The center cupboard contains a shelf. Size, 6 feet 3 inches wide in the extreme; 8 feet 10 inches high over all.

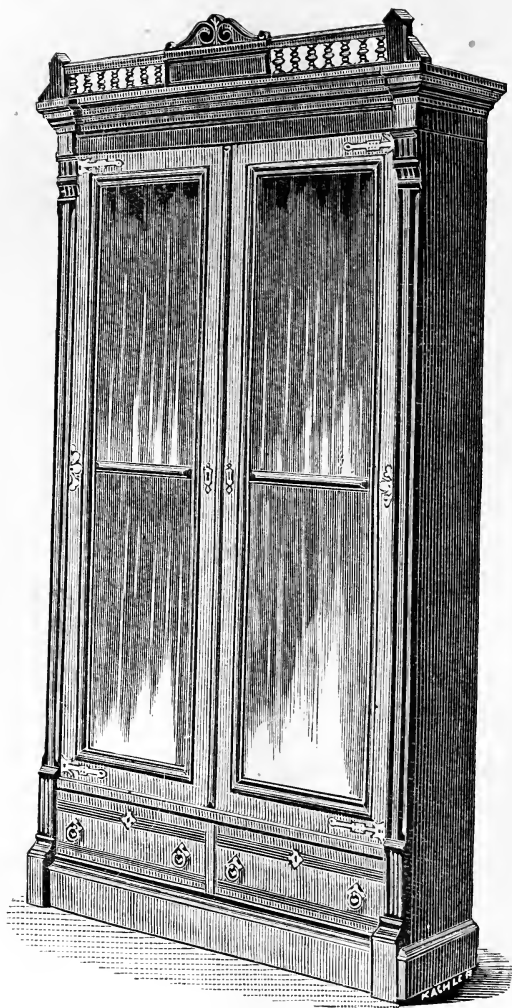

Please read Preface of this Catalogue.

No. 276

This design represents one of the most elegant and valuable secretory wing bookcases offered as a staple article to the trade. The bookcase part (behind the glass doors) is lined with birdseye maple and has shifting shelves. The closets below contain a shelf in each. It is made in sections to aid in handling, and the slide used for writing purposes is covered with billiard cloth, with a neat gilt border. The same is entirely hand-made, and is constructed only of one size, although it can be made to order to fit into any space. Has neat carvings, and the ornamental panels in front are of French walnut, highly polished. Size, 9 feet 4 inches high over all in the center; 7 feet 2 inches wide in the extreme.

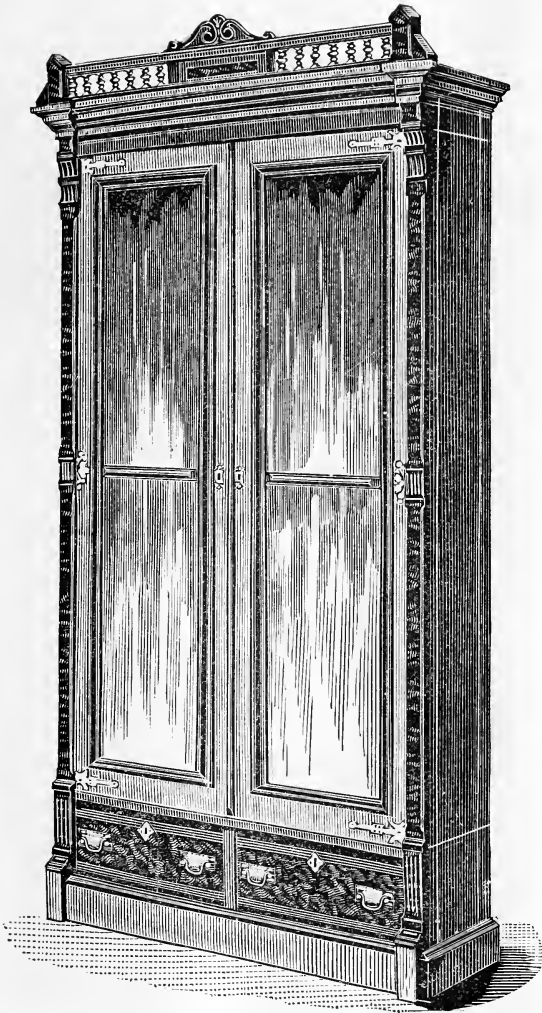

Please read Preface of this Catalogue.

No. 280

This library bookcase, built on the Eastlake principle, is made in one part, with the exception of the movable top ornament. Is constructed in a substantial manner, and deem it as cheap as any bookcase of the same character of work in the market. Has transparent glass in the doors, gilt trimmings and shifting shelves in the bookcase part. Is made in two sizes, known as A and B, as follows: A is 4 feet 4 inches wide extreme and 7 feet 10 inches high over all. B is 3 feet 10 inches wide extreme and 7 feet 3 inches high over all.

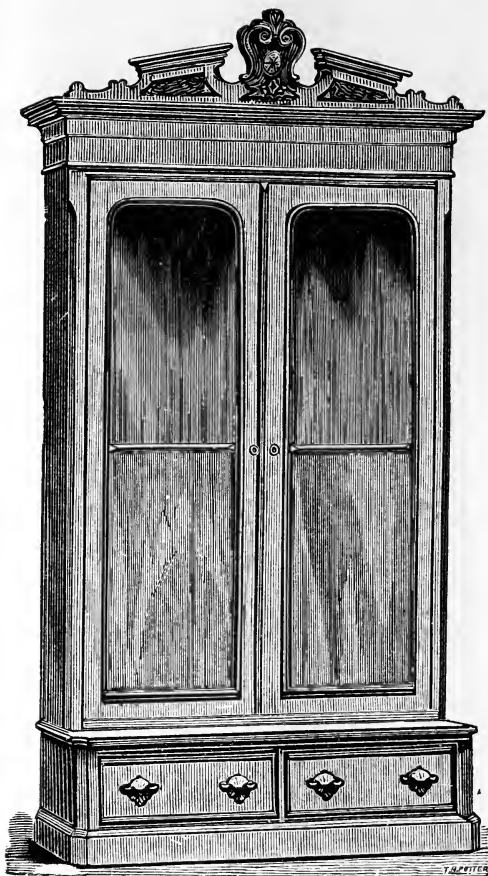

Please read Preface of this Catalogue.

No. 281.

This is the same pattern of Eastlake bookcase as the No. 280 design, but is of a better construction and finish. The addition of neat carvings, gilt trimmings and polished French walnut panels on the drawers and fronts give it a highly ornamental appearance which will commend it favorably to the trade. Has shifting shelves, movable top ornament, and transparent glass in the doors. Is made in two sizes, known as A and B, as follows: A is 4 feet 4 inches wide extreme and 7 feet 10 inches high over all. B is 3 feet 10 inches wide extreme, and 7 feet 3 inches high over all.

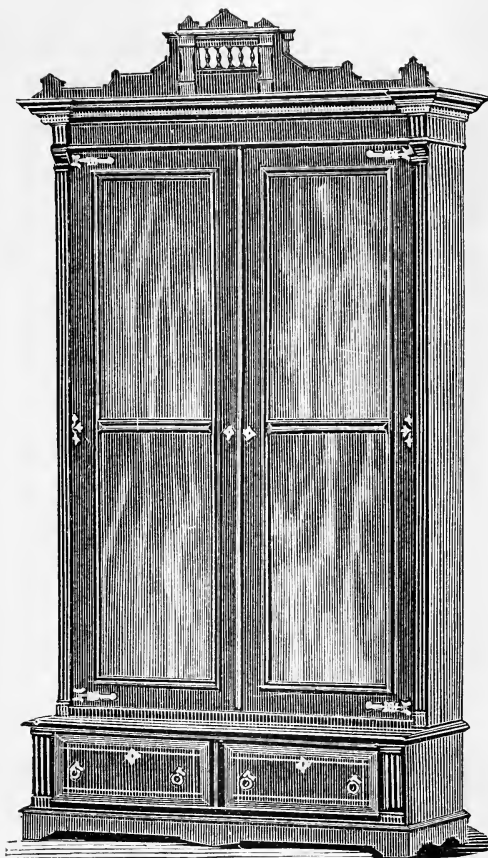

Please read Preface of this Catalogue.

No. 282

Represents a plain, substantial and graceful looking library bookcase. Has shifting shelves, transparent glass and a movable top ornament. The base containing the two drawers is built separate and projects 9 inches beyond the body of the case. Is made in two sizes, designated as A and B. A is 5 feet wide extreme and 9 feet high over all. B is 4 feet 6 inches wide extreme and 8 feet 4 inches high over all.

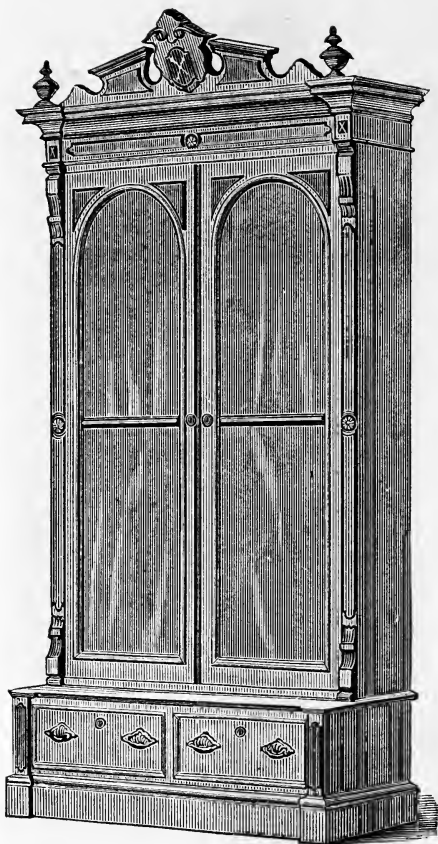

Please read Preface of this Catalogue.

No. 283

Has adjustable shelves, glass and separate projecting base of about 9 inches. Is made in two sizes, designated by the letters A and B. A, 9 feet high over all; 5 feet wide in the extreme. B, 8 feet 4 inches high over all; 4 feet 6 inches wide in the extreme.

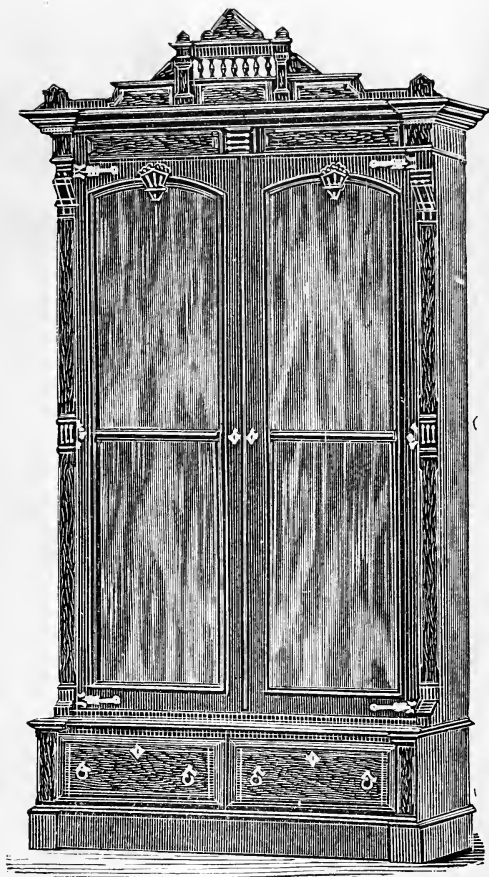

Please read Preface of this Catalogue.

No. 284.

This elegant bookcase is made in two sizes, designated by the letters A and B. The same is ornamented and finished in the best manner known to the trade. It is handsomely trimmed throughout with French walnut (polished), and has heavy moldings, neatly carved brackets, adjustable shelves, etc., all the modern improvements pertaining to a fine bookcase. A, 9 feet high over all; 5 feet wide in the extreme. B, 8 feet 4 inches high over all; 4 feet 6 inches extreme width.

Please read Preface of this Catalogue.

No. 286

Represents an elegant and desirable bookcase, suitable for parlor use, and partly similar in design to the No. 283 cut, but exceeding it in beauty of finish and quality of workmanship. The drawer fronts and ornamental panels are faced with French walnut (highly polished), and the same is otherwise neatly carved and ornamented in a first-class manner. Has adjustable shelves and nickel or gilt trimmings. Is made in two sizes, designated by letters A, B. A, 9 feet high over all; 5 feet wide in the extreme. B, 8 feet 4 inches high over all; 4 feet 6 inches wide in the extreme.

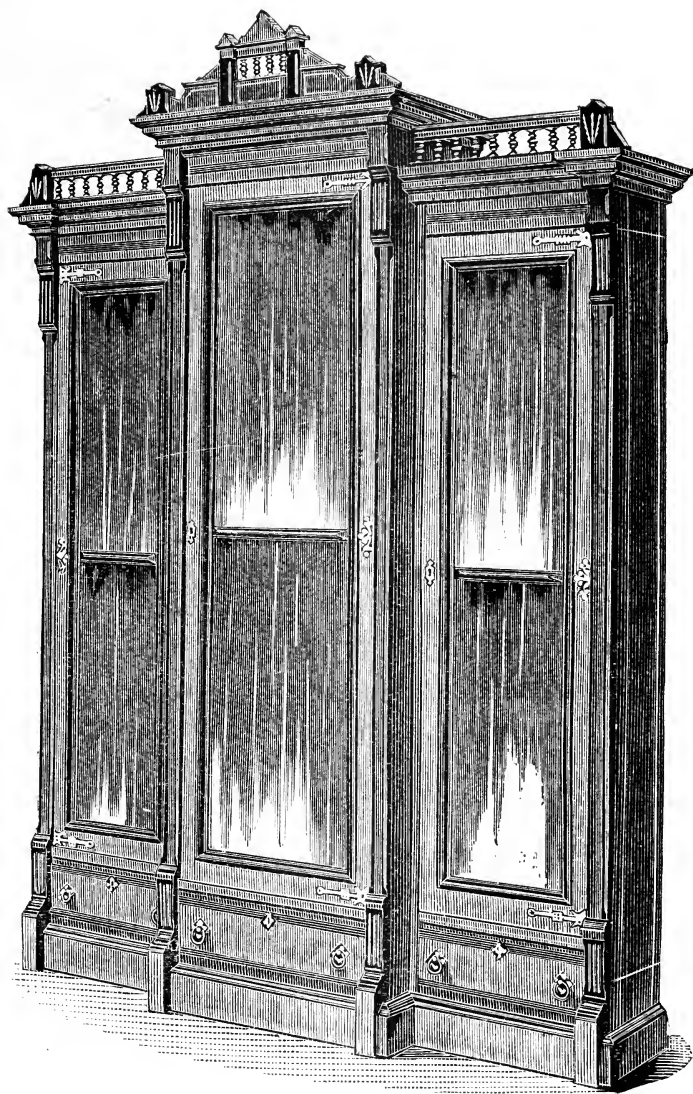

Please read Preface of this Catalogue.

— No. 287

Is one of the most elegant bookcases in the market (entirely hand-made). Has glass doors, shifting shelves, and is tastefully ornamented throughout by neat carvings, raised panels faced with French walnut (highly polished), and by the addition of other improvements not shown in the cut. Have only one size in stock, but it can be made to order to fit in any space in house or office. Size, 9 feet 6 inches high over all; 5 feet 2 inches wide in the extreme.

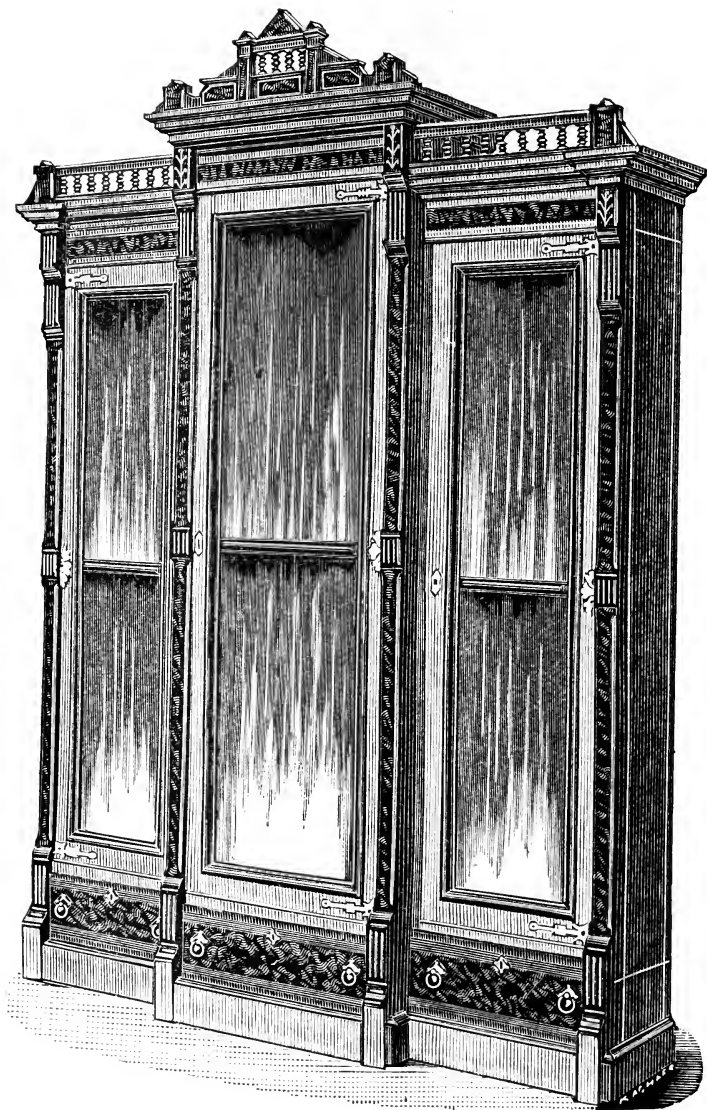

Please read Preface of this Catalogue,

No. 288.

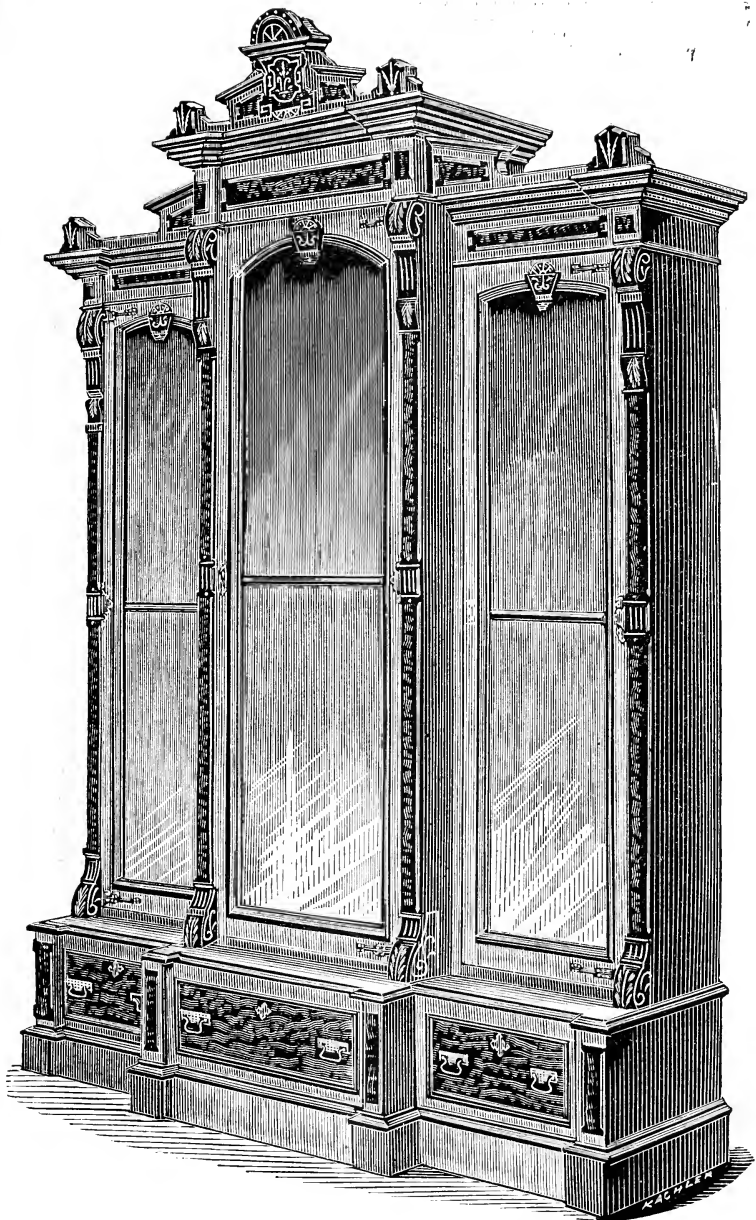

The wing bookcase, represented above, is built in the most substantial manner out of well-seasoned materials, and is richly ornamented throughout by choice carvings, heavy moldings and brackets, and presents a fine exterior, combined with strength and durability of construction. It is built in parts to aid in handling, and can be set up and readily screwed together. Has also shifting shelves and gilt trimmings. The same is made in two sizes, designated by letters A and B. A., 9 feet high over all; 6 feet 8 inches extreme width. B., 8 feet 2 inches high over all; 6 feet extreme width.

Please read Preface of this Catalogue.

No. 289.

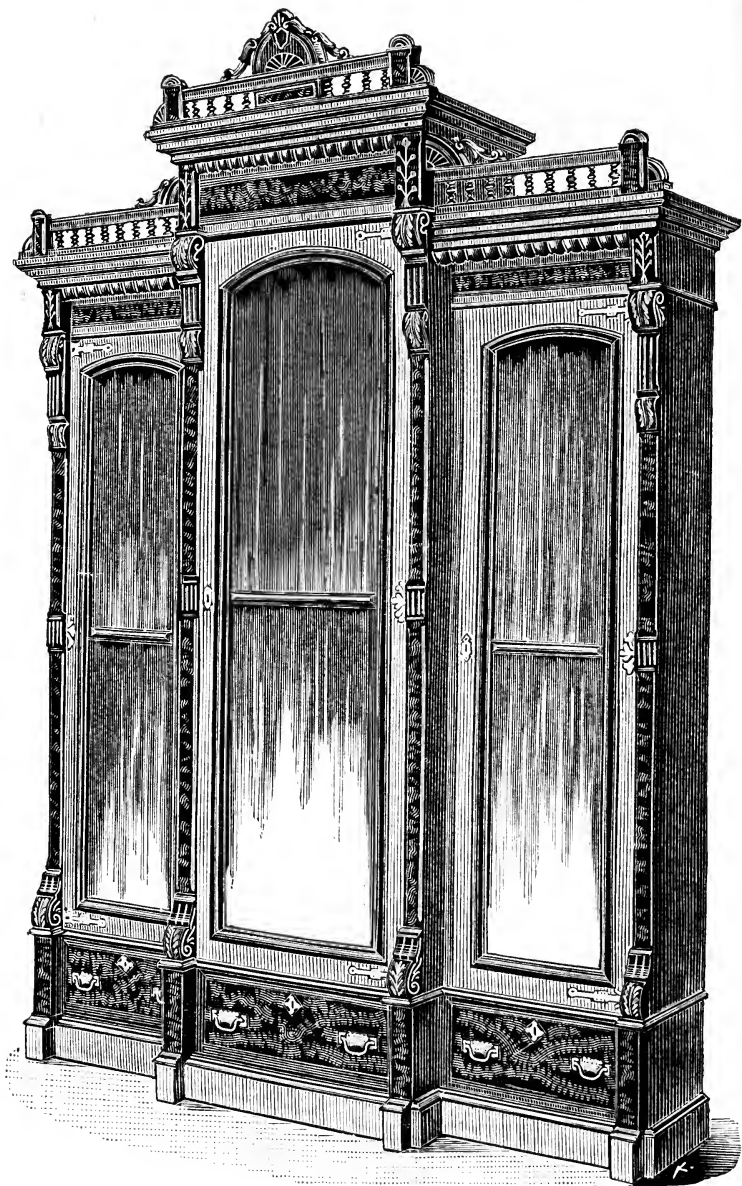

This wing bookcase is similar in design to the preceding one, but exceeds it in the beauty of its general finish and in the costliness of its construction. It is highly ornamented by the addition of choice carvings, gilt trimmings, polished French veneers on the drawer fronts and panels, and by other improvements which render it a very desirable bookcase for the parlor. Is built in sections to aid in handling. Has adjustable shelves and transparent glass in the doors. Is made in two sizes, designated by the letters A and B. A—9 feet high over all and 6 feet 8 inches wide in the extreme. B—8 feet 2 inches high over all and 6 feet wide in the extreme.

No. 290

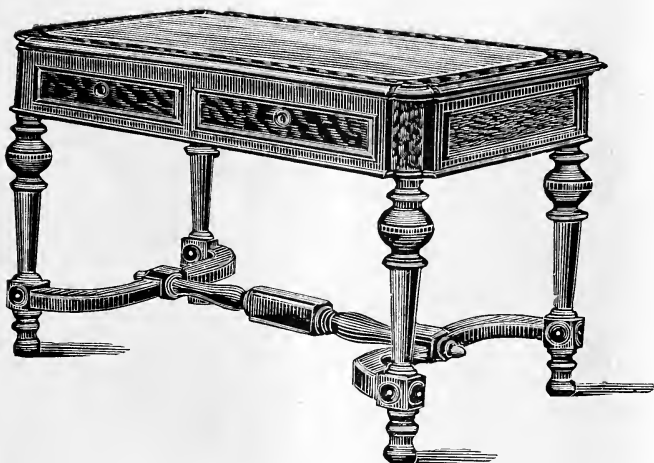

Is made in two sizes, designated by letters A and B, and is one of the largest and finest library wing cases in the market. The center section, being of great depth, will allow the ingress of large illustrated art books, which the ordinary bookcase will not permit. The drawer fronts and ornamental raised panels are of French walnut (highly polished), is built in sections with adjustable shelves, and is finished throughout in the best manner. A, 9 feet 9 inches high over all; 7 feet 2 inches wide in the extreme. B, 8 feet 8 inches high over all; 6 feet 4 inches wide in the extreme.

Please read preface of this catalogue.

No. 291.

This is an entirely new design of a large wing bookcase partly similar to the 290 cut, and is fully as rich and elaborate in its exterior finish as the latter, but the mode of construction being different and less costly makes it somewhat lower in price. Is built in sections, has movable shelves, transparent glass and gilt ornamentation, which, with the polished French veneers on the drawer-fronts and panels, will make it a choice favorite with the trade. The projection to the base is omitted in this case. Made only in one size: 8 feet 8 inches high over all and 6 feet 4 inches wide in the extreme.

No. 292.

This cut represents a good substantial library table, ornamented with polished French veneers on the drawer-fronts, panels and top edge. Has gilt handles on the drawers and billiard cloth cover with a neat gilt border. Is made in three sizes: 3 feet 6 inches, 4 feet, and 4 feet 6 inches long, but can be extended to any desired length for the use of bank directors, trustees and other organizations.

No. 293.

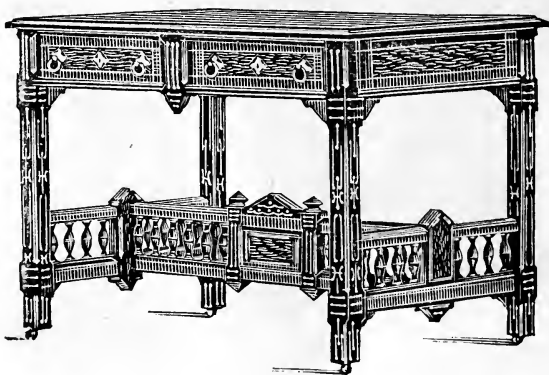

The library table represented by the above design is of much better construction and of more costly workmanship than the preceding article. It is richly ornamented by the addition of tasty carvings and French walnut veneers (highly polished) on the drawer fronts, panels and top edge and other prominent parts of the table. No. 381

This is precisely the same dwarf-wing bookcase in character and dimensions as the No. 377 pattern, except that the French walnut (polished) veneers are omitted, etc., making it a much plainer article, at a considerable reduction in price, than the above-mentioned number, and especially devised to meet the wants of those who frequently desire to purchase a plain, substantial article, without ornament. Size, 6 feet 8 inches wide in the extreme, 5 feet 11 inches high over all.

Please read Preface of this Catalogue.

No. 382.

This three-door dwarf bookcase is of same construction and style as the previous design. Is built in three parts to aid in handling, which can be readily set up and screwed together. Is of a plain character, with nice smooth-oil finish, transparent glass, adjustable shelves, nickel or gilt pulls, etc., and would commend it to the attention of the trade. The tops are reserved for bronze figures, statuary and other choice works of art. Size, 5 feet 10 inches wide in the extreme, 5 feet 10 inches high over all.

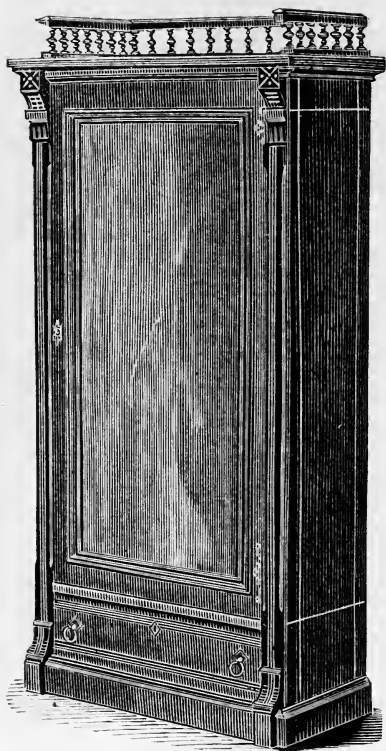

Please read Preface of this Catalogue.

No. 383.

This plain two-door dwarf bookcase is intended to match the two preceding styles in construction, character and price. Has adjustable shelves, transparent glass, nickel or gilt pulls, and nice smooth oil finish. Is a plain, neat and substantial article with considerable bookspace, and is the cheapest article, taking into consideration the quality of work, that there is in market. Size, 3 feet 10 inches wide in the extreme, 5 feet 5 inches high over all.

Please read Preface of this Catalogue.

No. 384

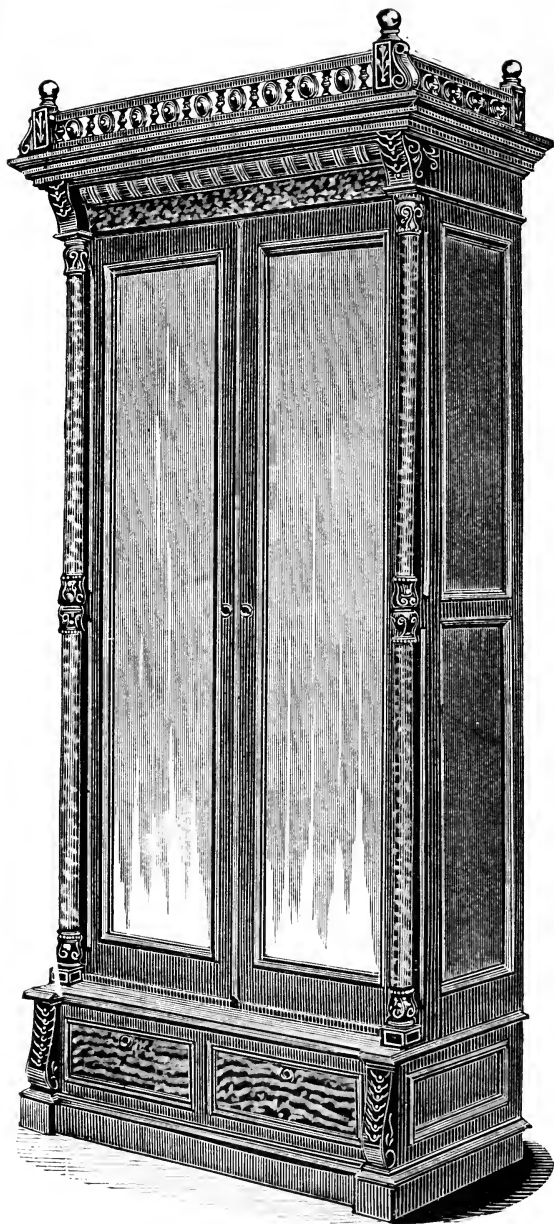

Is of similar style to the preceding one with one door, intended to fill up a small space in the room. No. 400

The case represented by the above number has been found very useful in public, insurance, shipping and other mercantile offices, where a large quantity of pigeon-hole and bookrack room is required for the better protection and careful stowage away of papers and public documents. The doors on the right-hand half of the case have been omitted, showing this portion of the same exposed to view, with several rows of pigeon-holes in the upper part, and a quantity of bookracks in the lower part. The two upper rows of pigeon-holes are covered by lids to better protect the papers from the dust. These lids will be constructed to cover all the rows of pigeon-holes throughout, unless ordered to the contrary. There is also two slides which pull out in the centre part of the case to rest paper on during temporary examination. It is built in a very heavy and substantial manner in two parts, has heavy moldings in all the panels, heavy base and cornice, and has a nice smooth oil finish. Would especially recommend this case to the notice of lawyers, trust companies, etc., where an unusual quantity of book and pigeon-hole room is required. Can make the same to order in any wood and in any size, with different divisions and arrangements inside to suit the requirements of our customers. Size, 8 feet 3 inches high over all ; 5 feet 6 inches wide in the extreme.
